

Top Reasons to Use Autodesk Subscription

Advance the way you work with Autodesk 360.

Autodesk® Subscription gives you more capacity and capabilities with Autodesk® 360 to help you increase mobility, improve collaboration, and optimize designs—advancing the way you work. Along with upgrades to the latest software releases, online technical support, and flexible licensing privileges, Autodesk Subscription now provides 25 GB of Autodesk 360 storage space per seat on Subscription, as well as exclusive access to cloud-based services such as Autodesk 360 Rendering, Energy Analysis, Optimization, and Structural Analysis.

Discover Your Place in the Cloud

To learn more about the Autodesk 360 benefits now available with Subscription, visit www.autodesk.com/subscription.

> Increased Mobility

Autodesk® Subscription customers receive 25 GB of Autodesk® 360 storage space for each seat on Subscription. By storing your design documents in the cloud, you can access your work anytime, anywhere simply through a web browser or mobile device. Extending your designs beyond the desktop gives you the power to work wherever you're most effective.

> Improved Collaboration

Autodesk 360 enables you to share design files with anyone, anytime, anywhere without the need for desktop software. Users can review and comment on 2D and 3D DWF™, DWG™, and PDF files through a web browser or through a mobile device using the Autodesk® Design Review mobile app. They can also use AutoCAD® WS to edit DWG files in the cloud. The increased Autodesk 360 storage capacity provided through Subscription helps you share more designs, increase collaboration, and improve project results.

> More Autodesk 360 Services

With a Subscription to an Autodesk commercial product or suite, you have access to powerful cloud-based services. These services enable you to perform compute-intensive functions in the cloud, which help you explore and visualize more design options and optimize your designs without tying up your desktop. The following services are available through Subscription:

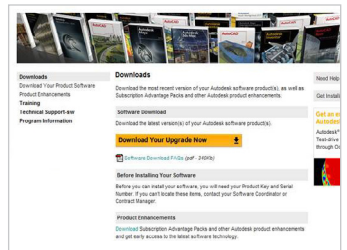

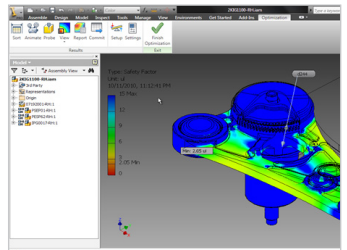

- **Autodesk® 360 Rendering:** Create more photorealistic images and panoramas of your designs in less time.
- **Autodesk® 360 Energy Analysis:** Compare the energy and lifecycle costs of design alternatives and make informed decisions that help you create more sustainable designs.
- **Autodesk® Green Building Studio®:** Optimize energy efficiency and work toward carbon neutrality with multiple design iterations.
- **Autodesk® 360 Optimization for Inventor®:** Test the performance of multiple designs through cloud-based design simulation for Autodesk Inventor.
- **Autodesk® 360 Structural Analysis for Revit®:** Extend design models from Revit to the cloud and analyze them as part of the BIM process.

> Upgrades to the Latest Software Releases

Subscription is the most cost-effective way to keep your Autodesk software up-to-date with access to the latest software releases and product enhancements. This helps you ensure that you always have the newest technology and design tools.

> Convenient Software Download

Subscription customers can download new software as soon as it is available from the Autodesk Subscription Center. Whether you're entitled to a full product upgrade or other product enhancement, you never have to wait for a box shipment again.

> One-to-One Technical Support from Autodesk Specialists

Subscription includes Autodesk Basic Support, which allows you to submit questions to Autodesk product support specialists via the Subscription Center web site. Support specialists will troubleshoot issues and help you with installation and configuration. Subscription also provides web-based tracking and management of all support cases, enabling you to see questions already asked by members of your organization, along with their resolutions. Subscription customers also have the option to purchase premium levels of Autodesk technical support, including Autodesk Advanced Support and Autodesk Enterprise Priority Support, if needed.

> Flexible Licensing Privileges

Subscription offers flexible licensing privileges that allow you to access both previous and current versions of your software, install the software on both home and office computers, and use it in multiple locations.

- **Previous Version Rights**—Run the current release or certain previous versions of your licensed software (up to three versions back for most products), subject to terms and conditions.
- **Home Use Rights**—Access licensed software at home on a personal computer as well as in the office, subject to terms and conditions.
- **Extra Territory Rights**—Use licensed software outside the country of purchase for 90 days, subject to terms and conditions.

> Administrative Tools

A variety of administrative tools are available on the Autodesk Subscription Center to help you manage your Subscription benefits.

- **Coverage Report**—Track and manage your software licenses and seats. View helpful details of each of your Subscription contracts such as contract numbers, contract start and end dates, group names, and product details.
- **Renewal Report**—Receive updates on contracts that will expire in 90 days or less.
- **User Management Features and Tools**—Control which users have access to your Subscription benefits.
