

Autodesk®

Quantity Takeoff

2012

System Requirements (32-bit & 64-bit)

Whether your Windows operating system is the 32-bit or the 64-bit version, the version is automatically detected during installation. The appropriate version of Quantity Takeoff is installed.

A single deployment cannot target both Microsoft Windows 32 and Microsoft Windows 64 operating system architectures. To target both architectures, two separate deployments must be created. This selection can be made in the Deployment Creation dialog.

Operating System

- Microsoft® Windows XP Professional
- Microsoft® Windows Vista®
- Microsoft® Windows 7

It is recommended that non-English language versions of Autodesk Quantity Takeoff be installed on an operating system with a user interface language that matches the code page of the Autodesk Quantity Takeoff language. A code page provides support for character sets used in different languages.

See the [Windows Vista versions](#) section of the Microsoft website.
